1.2 Construction

Logo Design with Grid System; Logo for a brand, when it comes to designing such an important piece of brand identity.

Designers take a step toward the grid system or logo grid to achieve geometric perfection in the logo design. To make a logo design feel perfect, a modern logo or minimal logo.

1.3 Clear Space

It defines the minimum distance between the logo and other graphic elements.
In order to preserve the integrity of De-greens Media logo and brand, the safe area must always be respected as shown.
the “D factor” refers to the safe area around the logo of De-greens Media which must never be encroached upon by other visual elements or text. It ensures that the logo is never placed too close to the edge of a document. The D factor is measured using the hieght of the uppercase D in the De-greens Media logotype and must be applied to all four sides of the logo as illustrated.
